
1451x SIO Solution for MIFARE® DESFire® EV1 + HITAG1 Card

Brand: Smartjac Industries Inc
Product Code: SMAH100146

Short Description

Smart card solution with SIO Solution for MIFARE® DESFire® EV1 and HITAG1 for migration to iCLASS SE platform.

Description

Overview

1451x MIFARE® DESFire® EV1 + HITAG1 Smart Card

HID Global's SIO Technology-enabled cards for MIFARE® DESFire® EV1 and HITAG1 provide customers with the benefits of HITAG1 technology and the convenience of combining an SIO solution for MIFARE® DESFire® EV1 on a single card.

The multi-technology solution is ideal for organizations moving from basic HITAG1 to MIFARE® DESFire® EV1 or seeking a one-card solution that supports both technologies.

The cards are designed to provide seamless migration to HID Global's iCLASS SE® platform for an interoperable, future-proof solution that delivers increased performance. The iCLASS SE platform goes beyond the traditional smart card model to offer technology-independent credentials based on Secure Identity Object® (SIO®) for higher security and adaptability.

As with all Genuine HID® products, the multi-technology cards with MIFARE® DESFire® EV1 and HITAG are part of the broadest product line of trusted, fully interoperable secure identity solutions and provide guaranteed interoperability with HID Global readers.

Key features

Supports mutual use of an SIO Technology-enabled solution for MIFARE® DESFire® EV1 and HITAG1 combined in one physical credential.

Supports iCLASS SE platform, providing superior privacy protection with AES standard cryptography for data authenticity and privacy through the multi-layered security of HID Global's SIO data model.

Complies with ISO/IEC standards for thickness and use with all direct to card or thermal transfer printers.

Available with magnetic stripe.

Can be produced with visual security and anti-counterfeiting features or a custom logo via HID Global Secure Identity Services™.

Lifetime warranty.

MIFARE®, DESFire® and HITAG1 are registered trademarks of NXP B.V in the U.S and other jurisdictions, and is used under license.
