Overview

Asure ID[®] 7 Solo for basic card management.

Asure ID Solo is the perfect entry-level card personalization software. Easy-to-use and easy to learn, the software is loaded with useful features to improve the issuance and management of basic photo IDs. Featuring a highly-intuitive user interface that utilizes a familiar Microsoft® ribbon look-and-feel, you can create great looking, full-color IDs in a matter of minutes.

Key Benefits:

Improved User Interface - Asure ID Solo makes it easy to design and program photo IDs, even those that include encoded magnetic stripes.

Swift ID® Template Import - Now you can import templates designed in HID Global's Swift ID® printer software into Asure ID Solo and enjoy more robust features and functionality such as the management of multiple card templates and storage of up to 200 records.

Simplified Printer Functions - Asure ID Solo allows you to design and print cards without having to open and configure complicated printer driver menus.

Low Maintenance - Asure ID Solo has built-in notifications about free software updates to ensure that the software is never outdated.

Dual-sided template designs

Import images (e.g., logos and graphics)

Add text and data field (variable and static)

Automated notifications of software updates

Optional annual/multi-year support packages

Product Gallery

The image shows a screenshot of a product comparison chart for HID's Asure IDr series. The chart is titled "PRODUCT COMPARISON CHART" and "Asure IDr Comparison Chart". It features the HID logo in the top right corner. Below the title, there are four small icons representing different product models: ASURE IDr, ASURE IDr, ASURE IDr, and ASURE IDr. The main body of the chart is a table with columns for various product features and specifications, and rows for different product models. The table is organized into several sections, each with a blue header. The first section is "GENERAL INFORMATION", the second is "FEATURES", the third is "SPECIFICATIONS", and the fourth is "ACCESSORIES". Each row in the table has a blue header with the product name and a series of columns with checkmarks or numerical values indicating the presence or quantity of a specific feature or specification. The table is quite dense with text and small icons, making it difficult to read in detail. At the bottom of the chart, there is a small logo for "HID Global Ltd." and the website "hidglobal.com".
