
Asure ID® Card Personalization Software - Exchange

Brand: HID Global
Product Code: SMAH100173

Short Description

Next generation card personalization software for more sophisticated secure credential applications, providing advanced smart card functionality and laser engraving.

Description

Overview

Asure ID Exchange is great for organizations seeking intuitive card design and data management tools for advanced card personalization applications.

Asure ID Exchange includes powerful integration, enrollment and encoding modules to ensure a quick and seamless gateway to other existing database sources, whether installed on a PC or a Windows® Pro Tablet. The iDIRECTOR® encoding and management module improves smart card development and deployment by enabling you to personalize the card graphically and electronically in one seamless process.

Asure ID Exchange also includes a laser configuration module for simplified set-up and maintenance of the HDP8500LE Laser Engraver. Together, you'll have everything you need to design and populate a card with a couple of clicks of the mouse.

Key Benefits

Improved User Interface - user-friendly interface has a similar look-and-feel to the familiar Microsoft® Ribbon, allowing you to design and manage the creation of sharp

photo IDs with minimal training.

Databases Demystified - comes with an internal database but utilize the configurable Live Link plug-in to easily print cards from a common database with real-time data exchange to Oracle®, MySQL®, Microsoft® SQL Server®, and Microsoft Active Directory/LDAP.

iDIRECTOR - in combination with Asure ID Exchange, the iDIRECTOR module allows you to quickly and easily manage card memory, load multiple smart card applications, and graphically personalizes smart cards such as iCLASS® Seos® in one seamless process.

iCLASS SE® Open Encoder Platform Support - includes support for HID Global's iCLASS SE encoder platform, enabling your users to create, encode (read/write), and manage physical access control solution (PACS) credentials in a single step, streamlining ordering, inventory management, and issuance processes.

Robust Reporting Suite - filter, sort, and group data as needed to build custom reports that meet the needs of your business.

Compatible with FARGO® HDP8500LE Laser Engraver— print, encode, engrave and laminate your secure credentials within a single, unified card template, saving you critical production and delivery time.

Physical Access Control Integration - tightly integrated with over 25 leading access control systems, making it exceptionally easy to register your physical access control system credentials directly from the software and reduce the number of applications utilized during the issuance processes.

Specifications

Compatible with Windows® Pro Tablet

Password log-on with definable user privileges and card template access

Languages supported: English, French, German, Spanish, Russian, Portuguese, Italian, Japanese, Korean, Simplified Chinese, Thai, Indonesian, Arabic, Turkish, and Czech

Networkable (Asure ID site licenses enable sharing of networked database information on multiple workstations)

ODBC import/export

Real-time data exchange (via Live Link) with Microsoft® Access® (2000, 2002 & 2003), Microsoft SQL Server (2000, 2005, 2008, 2012 & 2014), MySQL (Version 5), Oracle (9i & 11g), and Microsoft® Active Directory / LDAP (read-only)

iDIRECTOR Smart card encoding and management allows for easy integration of technology cards

Program and register Access Control Credentials into a variety of access control solutions

Integrated signature capture (TWAIN, WIA, and DirectShow®)

Add linear and 2D bar codes (PDF417, QR Code, and Datastripe)

Integrated photo capture with auto-enhance (TWAIN, WIA, and DirectShow®)

Integrated fingerprint enrollment with Lumidigm fingerprint sensors

Dual-sided template and printing designs

Supports standard and custom reports that can be viewed in Asure ID or exported for easy distribution

Optional annual/multi-year support packages

Printer Compatibility

HID is focused on ease of use and building **scalable ID software** that will grow with your business.

Asure ID 7 is optimized to maximize performance with FARGO Printer/Encoders, however, it also works with other popular printers in the marketplace. Below is a list of printers compatible with Asure ID software:

Asure ID Works with the Following Printers

All FARGO DTC & HDP Printer/Encoders

Datacard Card Printers

DIS Card Printers

Evolis Card Printers

Nisca Card Printers

Zebra Card Printers

Asure ID: The perfect driver for the ultimate card personalization machine

HID Global's Asure ID Exchange is the perfect accompaniment to the FARGO HDP8500LE Laser Engraving System. The most advanced card design and issuance software, Asure ID provides a single, intuitive interface for managing data and issuing credentials, including simultaneous printing, encoding, engraving and lamination. The available Asure ID Software Development Kit (SDK) enables integration into any credential management system.
