# IDAdmin 1000 - Token Management System - SmartTMS

**Brand:** Smartjac Industries Inc  
**Product Code:** SMAG1003849

## Description

### Features and Benefits

- Centrally manage the complete lifecycle of company-issued USB peripherals including binding the token to a user,
- Administer and remotely distribute applications, documents and web services
- Enforce security policies on devices including PIN policy and hostile network usage
- Remote PIN recovery
- Remote device locking for lost/stolen devices and revoked access for terminated employees
- Supports multiple OS: Linux, Unix, Windows
- Support for strong authentication through smart cards
- Track and audit token usage, recover and re-issue token

### Technical Specifications

Server Interface	Rich user interface (Web & Ajax, Java and Java Web Start). Strong authentication (smartcards and software certificates).
------------------	---

	Secure SOAP APIs for Web Services. Contextual administrator console.
Supported USB devices	OEM gemalto version: 'SmartTMS v1.2' : A - SmartGuardian 2GB A1) RO=2000MB, Pub=0MB, Priv=0MB A2) RO=200MB, Pub=0MB, Priv=1800MB A3) RO=500MB, Pub=0MB, Priv=1500MB A4) RO=200MB, Pub=300MB, Priv=1500MB B - SmartGuardian 4G. B1) RO=4000MB, Pub=0MB, Priv=0MB B2) RO=200MB, Pub=0MB, Priv=3800MB B3) RO=500MB, Pub=0MB, Priv=3500MB B4) RO=400MB, Pub=600MB, Priv=3000MB  Netheos versions : everbee . Kobil devices
Encryption	4096 bit RSA and 256 bit AES 256 bit SHA-2 X509 v3 HSM optional (Netheos, Bull crypt2pay).
Operating System	Zero foot print. Nothing to install on users computers.

## Compatibility

### Overview of the compatibility with third party systems..

Category	Application	Vendor
----------	-------------	--------

OS Support for Server	Red Hat Enterprise Linux 5.2 (32bits)	Redhat
	Red Hat Enterprise Linux 5.3 (32bits)	
	SuSE Linux Enterprise Server 10 (32bits)	Novell
	GNU/Linux Debian 5 (32bits)	Debian
OS Support for Agent	Windows 2003, Windows XP, Windows Vista Windows Seven	Microsoft
HSM		Netheos
	Crypt2Pay	Bull
Identity Management	Open LDAP	
	Active Directory (using LDAP for MSAD)	Microsoft
PKI & CMS	ILM / FIM	Microsoft
		OpenTrust
	EJBCA	
	Entrust PKI	Entrust
